

## **Engineering Officer - Sustainability**

Full time Contract  
(Reference No: 107-15)

The City of Canning is seeking a motivated and suitably qualified individual for the role of Engineering Officer – Sustainability. This role will be responsible for the implementation of environmental infrastructure across the City of Canning's new and existing buildings and facilities, the development of a sustainability reporting and measurement system, and the identification and delivery of electricity, water and gas consumption reduction initiatives.

To be successful in this role, candidates must possess relevant tertiary qualifications and have at least 5 years' experience working in a similar environment. They will also be proactive, self-managing of quality outcomes, have demonstrated project management experience and excellent communication, relationship and influencing skills.

An annual salary in the range of \$90,489 - \$101,108 is on offer including a superannuation contribution of 10.50% and complimentary Leisureplex membership.

For more information about the role, please contact Leroy Amprimo, Manager Assets and Property Services at 08 9231 0518.
